HANDS-FREE SCANNER

Z-6070

Hands-Free Dual-Laser Omnidirectional Scanner

The redesigned Z-6070 is spruced up with new features including better cable supports, added voltage protector, more interface options, and a more durable trigger. Like its prior model, the dual laser diodes drastically increase scanning power by doubling up scan lines, broadening scan angle and intensifying scan pattern across scan field. With this state-of-art technology, it is able to deliver the most comprehensive 32-line scan pattern empowering 2,400 scans per second.

• Unique dual-laser technology
• Proprietary Z-SCAN⁺ hardware decode technology
• Large scan field
• Single-line scanning capability
• Easy on-site configuration and upgradeability
• Honored by **Good Design Award 2007**
